Summary

Computer Engineer with 5+ years of experience as a frontend-focused full-stack developer, building modern web applications with React, Next.js, and TypeScript. Delivered scalable, high-performance, and SEO-driven solutions across fintech, consulting, and large-scale public sector projects, recently stepping into leadership roles that spanned both technical development and project coordination. Deep expertise in frontend architecture, performance optimization, Core Web Vitals, and UX, complemented by hands-on backend and deployment experience with Django, GraphQL, Hasura, Docker, AWS, and CI/CD workflows.

Professional Experience

Senior Frontend Developer, *İzmir Teknoloji* 12/2024 – Present
İzmir, Türkiye
Leading the development of high-performance, SEO-optimized websites and admin panels with Next.js and TypeScript, delivering quality solutions within strict deadlines. Alongside many other smaller projects, I led the development of skb.gov.tr and izsu.gov.tr

Frontend Developer, *Hesapkurdu* 01/2021 – 12/2024
İzmir, Türkiye
• Built and maintained web applications for Hesapkurdu.com & Koalay.com
• Transitioned from .NET MVC & React to Next.js (TypeScript) for improved performance and maintainability.
• Optimized frontend architecture, resulting in increased CWV scores.

Parttime Software Developer, *Vivd Consulting* 05/2023 – 06/2024
Kelowna, Canada
• Developed a Django project before migrating it to Wix (thebotoxcourse.com)
• Contributed to a Next.js + Hasura + GraphQL project. (Agents of Discovery)
• Ensured containerized deployment using Docker, enhancing development consistency.

Software Developer, *MET Advanced Technology Systems* 05/2019 – 01/2020
İzmir, Türkiye
Started as a software development intern, then worked as a parttime fullstack web developer. Used and learned about PHP, Django, Javascript, Wordpress.
